

Dear Parents/Guardians,

We are excited to inform you that our school is implementing an esports program as part of our extra-curricular activities. Esports, or competitive video gaming, has become increasingly popular around the world, and we believe it provides a unique opportunity for our students to develop skills such as teamwork, communication, and strategic thinking.

As part of our esports program, we will be using Discord, a communication platform specifically designed for gamers, to facilitate communication and coordination among team members. Discord will allow our players to coordinate practice schedules, discuss strategies, and communicate during matches.

We understand that safety and security are of utmost importance when it comes to our students' online activities. As such, we have taken several steps to ensure that our use of Discord is safe and appropriate for our students. These steps include:

- Setting up a private Discord server exclusively for our esports program, which is only accessible by students and staff members who are part of the program.
- Ensuring that all communication on the Discord server is monitored by designated staff members who are responsible for maintaining a safe and respectful environment.
- Implementing strict guidelines and codes of conduct for all players to follow, to ensure that all communication is respectful and appropriate.

In order for your child to participate in our esports program and use Discord as part of this program, we require your consent. Please sign and return the attached consent form to confirm that you have read and understood the information provided and agree to your child's participation in our esports program and the use of Discord.

We believe that our esports program can provide a positive and rewarding experience for our students, and we are committed to ensuring that their participation is safe, appropriate, and enjoyable. If you have any questions or concerns, please do not hesitate to contact us.

Discord's Terms of Service require users to be 13 years old to use the service without supervision. The age restriction on Discord is not a law, but rather a policy set by the company itself.

Thank you for your support.

Sincerely,

[Your Name] : \_\_\_\_\_

[School Name] : : \_\_\_\_\_

Consent Form

I, [Parent/Guardian Name], the parent/guardian of [Student Name], give my consent for my child to participate in the esports program at [School Name] and to use Discord in the context of this program. I have read and understood the information provided regarding the use of Discord, and I understand that my child's participation in this program is subject to the guidelines and codes of conduct established by the school.
